Online Property Tax Payments

City Property Tax

Property Tax Payments Made Easy!

Our property tax web sites uses specialized encryption to ensure tax payment information is secure. Online payments are more secure than mailing payments from a home postbox. The payments are processed within 2-4 days of submission using secure payment systems to process Visa, MasterCard credit or debit cards and echeck, enabling the City Tax Collector to receive payments faster and more securely.

When payments are submitted, a printable receipt of the transaction is available for immediate printing and retention for recording receipt. This transaction receipt will contain all information about payment(s) as well as a payment confirmation number. Along with a transaction receipt, an e-mail with the same information is sent to payee as an additional record should they have any problems after completing payment. Within a few days of payment, the payee will receive an e-mail that is the final confirmation of payment. This e-mail is proof that payment passed through the processor's bank and has been deposited in the County Trustee's bank account. E-mail address will never be sold or transferred to outside parties for any reason except as applies to this transaction. A convenience fee for a percentage of the transaction is charged to the cardholder by the payment clearing house for processing credit card or echeck payments.
